

OU-Flex

The Complete Solution

- 1m, 1.2m or 1.5m antenna sizes
- Flyaway or roof mount
- OU-Flex shelf with WiFi hotspot
- 4W / 6W / 16W / 30W / 80W BUC
- Newtec MDM3310 modem

COVERAGE

OU-Flex transforms the traditional one-way feed for video broadcast into a two-way connection between the site and the studio, providing more flexibility to broadcasters and SNG (Satellite News Gathering) operators to facilitate remote production and distribute video content to online platforms.

Milexia is pleased to offer a fast, low cost and simple way for any DSNG operator to access the benefits of the OU-Flex platform across the whole of Europe on ASTRA 3B.

Manage your entire video and data contributions with maximum flexibility, simply by equipping your SNG vehicle with our complete OU Flex solution.

With a choice of antennas to meet your requirement from ultra-portable flyaway system that can be carried onto any commercial aircraft to mobile systems to fit onto any vehicle or trailer.

With tailored service packages for media communications, IP video streaming, social media and file transfer; the Milexia OU-Flex solution enables you to stream live video from sporting events, share content on social media platforms, transmit content into archives, and exchange large files between locations.

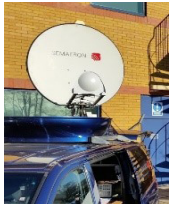

.....
Example of coverage for a SNG truck with a 1.5m antenna, where we can provide a service with up to 30Mbit/s upstream and 100Mbit/s downstream.

OU-Flex

The Complete Solution

Each OU-Flex system can be supplied with the integrated OU-FLEX shelf which includes all RF distribution, WiFi router and two hard wired ethernet connections.

OU-DARM120

- Fits on any structure
- 16W / 30W / 80WBUC
- OU-Flex shelf

OU-DARM150

- Fits on any structure
- 16W / 30W / 80WBUC
- OU-Flex shelf

OU-DAVM120

- Fits on any structure
- 6W / 16W
- OU-Flex shelf

OU-FA100

- 2 case solution under 23kg each
- 16W / 30W BUC
- OU-Flex shelf

OU-FA120

- 4 case solution under 23kg each
- 16W / 30W / 80WBUC
- OU-Flex shelf

OU-FA150

- 5 case solution under 23kg each
- 16W / 30W / 80WBUC
- OU-Flex shelf

OU-QD120

- Single Case (80kg)
- 6W BUC universal LNB
- OU-Flex shelf
