

HEALTH & SAFETY POLICY

Keeping People Safe To Protect The
Future of All Stakeholders

It is our goal to achieve an environment free of work-related accidents and ill-health to ensure the safety of our employees, protect our reputation and provide continuous service to our customers.

We shall achieve this through:

Regulatory Review

Leveraging regulatory and statutory information and advice applicable to our business activities through research and third party resources.

Conveying Responsibility

Ensuring awareness of responsibilities and authorities at all levels of the organisation and within all tasks undertaken through policies and procedures.

Investing in Skills

Ensuring all staff have the knowledge, competence and qualifications commensurate with their role and level of responsibility through external courses and regular internal staff training.

Managing Threats

Identifying risks and hazards through internal assessments and within the procedures and methods drawn up to support all internal and external activities.

Empowering Staff

Inspiring good practice in Health and Safety through knowledge, acting on experience, encouraging and responding positively to feedback.

Our health and safety policy is reviewed annually by an independent body to monitor its effectiveness and to ensure that it reflects changing needs and circumstances.

John O'Brien
Managing Director Milexia UK

April 2020

Milexia UK seek to undertake to discharge our duties and exercise diligence to be compliant to legislation and voluntary standards for Health and Safety: HEALTH & SAFETY AT WORK ACT 1974 - The Health and Safety at Work etc Act 1974, also referred to as HASAW or HSW, is the primary piece of legislation covering occupational health and safety in the United Kingdom.
